SECTION 800 – Facilities and Transportation

ADMINISTRATIVE PROCEDURE: TRANSPORTATION OF STUDENTS

<i>PROCEDURE CODE:</i>	<i>804 P 001</i>
Policy Reference: 804 – Transportation of Students	

BACKGROUND

The Education Act directs School Boards to provide for the transportation of students subject to regulations made by the Ministry of Education.

Alberta Education provides a funding subsidy for any student who lives 2.4 km or more from their designated school. School Divisions are allowed to charge families a fee for the students who are not eligible for transportation subsidy by Alberta Education or if the costs of the transportation service exceed the provincial subsidy.

Our Division believes that the responsibility for providing safe student transportation is a shared responsibility of division employees, school bus contractors and their employees, parents/guardians and students.

DEFINITIONS

2. Fees for Service

Transportation fees may be implemented for all Grades K-12 students being provided with division transportation service but are “ineligible” to receive provincial transportation funding. The exception being K-3 students residing between 1.2 and 2.4 kilometres from and attending their designated school.

The transportation fee is to be implemented “only” when additional transportation service due to program of choice transportation causes division transportation costs to the provincial subsidies.

If it becomes necessary to charge a transportation fee it will first be applied to services running deficits against provincial funding.
